

Rescue Grab RG10

Product Description

RG10 is the Rescue Grab from At Height Ltd. RG10 is tested to EN567 for use as a mid-line attachable 'clamp device' in rescue pulley systems – it should not be used as a fall arrest grab on a vertical lifeline system (EN353-2 or Z359.15). A special rubber insert is moulded into the device to help prevent slippage particularly on wire/cable and thin webbing used in SRLs.

Lanyard/Lifeline Type

Rope
Webbing
Wire (SRL Cable)

Constituent Size

8mm - 16mm
20 - 30mm and ≥ 1.5 mm
4 - 5mm

Product Information

Weight 375g
Height 100mm
Width 75mm
Depth 90mm
